PROFESSIONAL SUMMARY

Results-driven Mobile Application and Web Developer with hands-on experience building cross-platform mobile apps and responsive web solutions. Proficient in Flutter, Dart, PHP, and JavaScript, with a strong foundation in UI/UX design principles and RESTful API integration. Committed to writing clean, maintainable code and delivering polished digital products that meet client requirements.

WORK EXPERIENCE

Mobile Application & Web Developer | Self-Employed

December 2023 – Present • Peshawar, Pakistan

- Designed and developed cross-platform mobile applications using Flutter and Dart
- Built responsive, user-friendly web applications with HTML5, CSS3, and JavaScript
- Implemented and consumed RESTful APIs for data exchange and third-party integrations
- Wrote clean, maintainable, and well-documented code following industry best practices
- Tested, debugged, and optimized applications to ensure performance and reliability
- Managed application state, navigation, and user interface components
- Collaborated with clients to gather requirements and translate them into technical solutions
- Used Git and GitHub for version control and project management
- Maintained and updated existing applications based on user feedback
- Ensured cross-platform compatibility and responsive design across devices
